

Week 48/2013

The League is a group of Sudoku lovers from around the world, including Czech Republic, France, India, Iran, Netherlands, South Korea, Thailand, UK and many more. Each author of the group is a highly experienced solver, and publishes his puzzles online for all to enjoy. We would like to thank the authors for contributing. Please visit their websites for more great puzzles!

One day after publication, you can also play the puzzles via an applet on <http://www.sudokucup.com/content/guest-leagues>. They are also compiled in a pdf-sheet once a week. Please note, that some puzzles might not be played online due to applet-restrictions, and that paper solving times might differ from online solving times for some types. However, target times are given in the format [*best online solving time, median online solving time*].

Would you like to contribute? Whether you'd like to write some puzzles, or simply play along daily with solvers from around the world, you are more than welcome to join in the fun in our Facebook group, located at the following link: <http://www.facebook.com/groups/309473799153072/>.

Classic Sudoku rules: Place a number from 1-9 in each empty cell in the grid such that each row, column and marked 3x3-box contains each number exactly once.

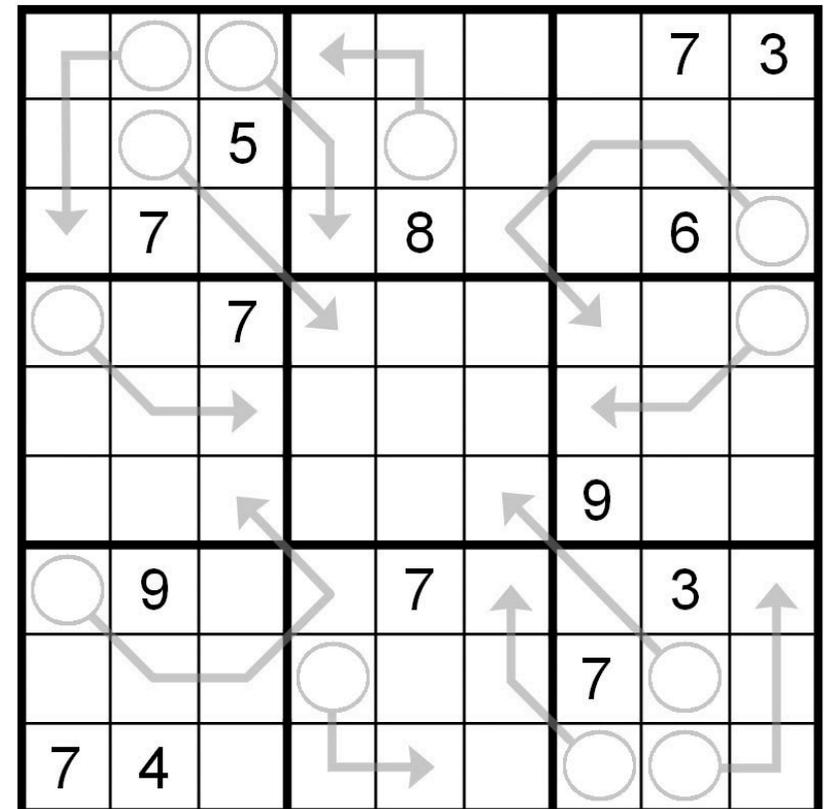

Arrow Sudoku

Date: Monday, 25-Nov-2013

Author: Sina Hedayati (Iran)

Author's website: <http://6lunatic6.blogspot.com/>

Rules: Follow Classic Sudoku rules. The number in a circle is the sum of the numbers which are covered by its arrow.

Skyscraper Sudoku

Date: Tuesday, 26-Nov-2013

Author: Prassana Venkatesh Seshadri (India)

Author's website: <http://prasannaseshadri.wordpress.com/>

Rules: Follow Classic Sudoku rules. Additionally, each number in the grid represents the height of a skyscraper. The digits outside the grid indicate the number of skyscrapers, which can be seen from the corresponding direction. Skyscraper may not be seen, if there is a higher skyscraper before them in line of sight.
